

Environmental Policy

Evergreen Care UK are an environmentally conscious Charity and acknowledge the potential environmental impact that the delivery of our support services may have on the environment.

This policy has been approved by the Trustees and it is the responsibility of the Chief Executive and Chief Operations Manager to ensure the information contained in this policy is disseminated to all staff and volunteers within the organisation.

We are committed to reducing and preventing pollution and waste and working on ways we can further improve our environmental output in the future.

As a Charity, we are committed to ensuring that:

- We comply with all environmental legislation, using codes of practice and guidance produced by regulatory bodies to assist where appropriate;
- We provide and equip all our employees and volunteers with the necessary information and resources including instruction and training to fulfil the requirements of this policy, appropriate with their role;
- We make use of available technology to minimise the use of paper and reduce waste;
- We incorporate environmental best practice into our business operations;
- We minimise pollution by ensuring we co-ordinate business for our key workers
- We reduce waste by recycling wherever practicable
- Ensure that the environment is considered in the procurement of goods and services;
- Give consideration for the environment in the services we provide to our clients and other customers.

Our employees and volunteers are expected to uphold the contents of this policy, whilst ensuring that their work is carried out without risk to themselves, others, or the environment.
